

MEMBER DISCOUNT HIGHLIGHT

The Greater Michigan Construction Academy Training Discount for ABC Members

With the high demand for craft skill workers, Greater Michigan Construction Academy began its apprenticeship training program in 1983. Currently GMCA trains 11 different trades from plumbing to carpentry. GMCA's main campuses are located in Lansing, Midland and Saginaw, Michigan.

An ABC/GMC member company tuition rate to attend GMCA is \$700 per semester (plus books and lab fees), which is 1/2 off the regular price of tuition of \$1,400.

ABC/GMC member employees are getting hands on training experience, and members have direct access to new talent coming out of The Greater Michigan Construction Academy. Not to mention, careers in skilled trades are in high demand and GMCA is training in order to fill the skilled trades gap.

Qualifications to attend GMCA include a high school diploma or GED. The Greater Michigan Construction Academy also offers support to Veterans and works with each student to offer job placement, if not already achieved.

Enrollment for the fall semester begins the last week in June and classes begin the first week of August. Enrollment for winter semester begins the second full week in November and classes begin the first full week in January. Students can enroll online at gmcami.org or by calling the office at 855-832-8879.

Please visit The Greater Michigan Construction Academy's website at gmca.edu or call the office at 855-832-8879 for questions. Also for updates on the academy and for listing of fundraisers, follow GMCA on Facebook, Twitter or Instagram.

For More Information: Please contact The Greater Michigan Construction Academy at gmcami.org / 855-832-8879

This member benefit is made possible by the partnership between ABC, Greater Michigan Chapter and GMCA.
